FY18 Actual FY19 Actual FY20 Projection FY20 Target FY21 Target

#### Long-Term Issue - Life Safety – Property Loss

The lack of awareness and application of personal safety and health measures by residents, if not addressed, will result in fire fatalities, illness, injuries and property loss.

#### Strategies to address the Long-Term Issue

- Conduct community risk reduction activities where a safety survey, home smoke alarms, healthcare needs, and safety messages or drills are provided.
- Increase improved life safety knowledge through safety education sessions.
- Distribute long life smoke alarms in targeted high fire risk areas.
- Provide online pre-inspection checklists and provide regular inspections.
- Provide CPR training to Oklahoma City employees and residents.

#### Strategic Result(s) to measure annual progress on Long-Term Issue

Annually, the structure fire fatality rate in Oklahoma City will be at or below the national average (1.05 per 100,000 residents based on the latest available data from the National Fire Protection Association (NFPA).

ional Fire Protection Association (NFPA).

FY18 Actual FY19 Actual FY20 Projection FY20 Target FY21 Target

### Long-Term Issue - Increased Service Demand

The growing demand on Fire Department services and resources caused by population growth, development, and changing demographics, coupled with an increasing role in EMS delivery, if not addressed, will result in:

- Increased response times leading to property loss
- Deterioration of patient condition
- Increasing delays in delivering other services
  - Hazardous Materials
  - Technical rescue
  - Water rescue
  - High angle rescue
  - Trench Rescue
  - Confined space rescue
  - Structural collapse rescue
  - Wildland urban interface
  - Agency assist

#### Strategies to address the Long-Term Issue

- Continue to review and upgrade the Advanced Life Support Program (ALS) to meet City Council directives.
- Concentrate recruitment and training efforts on increasing Oklahoma City Fire Department paramedics.
- Continue the planning and construction of new fire stations authorized as General Obligation Bond projects.
- Continue the implementation and training for enhanced communications and data systems.
- Continue integration with EMSA including the periodic analysis of the Medical Priority Dispatch System (MPDS) to ensure appropriate allocation of our EMS resources.
- Continue to work with local, state and federal organizations to assist and provide monitoring and detection for our residents and responders at large venues and National security events.
- Collaborate with other City Departments to implement plans that are conducive for emergency responses to include faster routes and areas free of permanent obstructions.
- Collaborate with local educational institution, Medical Director, local law enforcement, state and federal organizations, and medical transport agencies to increase educational opportunities.

#### Long-Term Issue - Aging Facilities and Fleet Replacement

A lack of capital funding for Fire Department facilities and fleet replacement past 2021, if not addressed, will result in increased facility and fleet maintenance costs and a diversion of resources from direct services to the public.

#### Strategies to address the Long-Term Issue

- Continue the planning and construction of new fire stations authorized as General Obligation Bond projects.
- Complete facility repairs funded by General Obligation Bonds and Fire Sales Tax Fund.
- Work with City leadership to identify a funding source for Fleet replacement.
- Use MA+ Engineering facility assessment to prioritize building improvements throughout the Fire Department and identify a funding source.

#### Strategic Result(s) to measure annual progress on Long-Term Issue

By 2021, 100% of annual fleet replacement needs will have an identified funding source.
