#### Proposed City budget for 2016 introduced

City Budget Director Doug Dowler on Tuesday unveiled the proposed City budget for the 2016 fiscal year, which begins July 1. The proposed \$1.25 billion budget will be discussed and considered during the next several weeks, and the Council can make amendments to it. The Council is set to vote on the budget by the end of June. Read more

#### Top Stories

#### Contract for online auction services could earn City \$1M

Online auctions that tap the national and sometimes even international markets could help the City earn at least \$1 million over the next year. The City Council voted Tuesday to approve a one-year contract to auction surplus property on GovDeals.com through the National Joint Powers Alliance. Selling the surplus property online allows the City to get better prices for items that are worth more elsewhere than on the local market. For example, the City recently sold an old barge for \$20,000 to a buyer from Alaska through an online auction, but locally the barge would have been worth only about \$1,600 as scrap metal. ## **Strategic Issues**

- System Security and Data Integrity
- 2. Growing Demand for Technology Services
- 3. Realizing Business Process Improvements
- 4. Operational Funding and Resources
- 5. Advanced Skill-Sets

#### Since July 1, 2014\*

60 projects completed80 new projects requested74 currently in progress206 projects to be completed

#### **Projects to be completed by**

\* Counts of projects sized medium, large, or enterprise. Small projects excluded.

### **FY16 Proposed Operating Budget**

Total Operating \$25,626,225

#### **Breakdown by Line of Business**

#### IT Operating Budget Breakdown by Department Served

54% of the IT department operating budget is to support Public Safety applications and systems

### **Proposed Budget Major Changes**

- Add 1 position to
   Development Program
   (Systems Analyst I \$76,677)
- Technology Training program
   was removed for FY16

Radio System Infrastructure

- Training functions are provided through individual programs
- 2.76% required operational increase for maintenance and services on existing systems

### **IT Department Structure**

### **103** Positions Total

### **Customer Support**

Provide <u>single point of contact</u> for customer technical support needs and rapid restoration of normal services

4,000 work requests completed (FY15 est)

IT Service Desk

**Onsite Desktop Support** 

- Management of 1,500 computing devices
- 1,100 cell phones and 1,300 cellular data modems

LFR: Customer Satisfaction with timeliness and quality of services (FY15) - IT Department (95%)

### **Technology Application Support**

*Provide enterprise application support services including patches, upgrades, enhancements, customizations, training, troubleshooting, and vendor management* 

- Critical City systems including:
  - PeopleSoft HR and Financials Enterprise System
    - Kronos time keeping
    - Cashiering systems
  - o Risk Management
  - SAP Support (Utilities)
  - Electronic Bidding
  - Service Call and Work order system
  - o Permits
  - Code Enforcement and Animal Welfare
  - Fleet and Fuel Management Systems
  - Agenda Management
  - Document Management
  - Geographic Information Systems (GIS)

#### LFR: Customer Satisfaction with timeliness and quality of services (FY15)

- Departmental Systems (98%)
- Enterprise Business Applications (97%)
- Geographic Information Systems (95%)

#### LFR: % of customer incidents resolved within four operational hours(FY15)

- Departmental Systems (98%)
- Enterprise Business
  - Applications (91%)

### **Technology Application Support**

### Project highlights

- Continue to expand field computing to enterprise applications
  - Expansion to 250 devices in the last few years
  - Code enforcement 38 devices
- Agenda Management Major Upgrade
  - Improved searching and agenda presentation

Development Services Field Technology

Animal Welfare Mobile Computers

### **Technology Enhancements**

Provide new technology identification, business analysis, custom application development, data management, project management and implementation services to City Departments

- 45 custom applications
- 329 production databases
- Add Systems Analyst I

### **Public Safety Support**

*Provides public safety applications, systems, communications, and 911 facility management for the City* 

- Critical Public Safety Applications
- Emergency 911 on-site dedicated support
- 182 outdoor warning sirens

Public Safety Communications Center

Public Safety Vehicle Outfitting

- 786 vehicle mounted mobile data computers
- 4,800 user radios

LFR: Customer Satisfaction with timeliness and quality of services (FY15) - Public Safety Comm (98.8%)

## **Public Safety Support**

### Project highlights

- Electronic Citation hardware and software
  - Parking enforcement, Motorcycle Police enforcement, and some Police uniform patrol
  - o 150 units initially

TriTech Mobile CAD

Radio System

- Technical support of body-worn cameras
- Radio system upgrade to P25 RFP
  - End-of-life/end of support
- $\,\circ\,$  Phase I of Police RMS and Court RMS
- Replace 911 equipment and software, and prepare OKC for Next Generation 911

### **Technology Infrastructure**

Provides security, network, server, telecommunications, and client configuration services to City Departments

- Low profile/ high priority system-wide security
- 845 network infrastructure devices
   11,960 connections over 160 sites
- 5,582 telecommunication devices and
   5 call centers
- 612 servers (13% avg annual increase) and 1,440 terabytes of storage (47% increase)
  - New primary data center (FY16)
- 463 CCTV cameras

- LFR: % of client devices meeting current security standards (87% of 3,800 client devices)
- LFR: % of CCTV cameras operational (98%)

CCTV Management

### **Information Technology**

# Committed to improving the lives of the citizens of Oklahoma City.

Proposed Budget FY 2015-16
