#### Long-Term Issue - Financial Management and Information

Increasing customer needs for timely information, financial management services and higher levels of accountability and transparency if not addressed may result in increased costs, reduced city services, difficulty in maintaining compliance with laws and regulations, lost revenue, and reduced credibility with customers and stakeholders.

#### Strategies to address the Long-Term Issue

- Provide more proactive communication, such as newsletters and training.
- Work with customers in departments to identify their financial information and service needs and develop the resources and services identified.
- Clarify and improve financial policies and ensure they are easily accessible and effectively communicated to departments.
- Refine and maximize use of technology to streamline processes for staff and customers.
- Focus on staff development and morale through succession planning and internal training.
- Provide residents with easily accessible financial information.

#### Strategic Result(s) to measure annual progress on Long-Term Issue

Annually, 95% of customers will report they are satisfied with the Finance Department.

#### Long-Term Issue - Sustainable Financial Model

Increasing costs, limited revenue raising flexibility, growing future liabilities, and higher demands for City services if not addressed will result in increased use of debt, decrease in service levels, and a focus on immediate needs at the expense of long-term goals.

### Strategies to address the Long-Term Issue

- Contributions for the Employee Retirement System will be budgeted at the Actuarial Determined Contribution (ADC) rate.
- Develop a funding plan for maintenance, operating, and capital replacement of MAPS and bond projects.
- Continue funding and cost management to address the long-term liability of retiree health insurance (OPEB).
- Prepare and manage the General Fund budget to maintain appropriate reserve levels and control personnel cost levels.
- Pursue legislative changes to expand the sales tax base, provide revenue diversification and use of property tax.

### Strategic Result(s) to measure annual progress on Long-Term Issue

The City will maintain the AAA credit ratings on the General Obligation Bond Program.

### Long-Term Issue - Safety

A continued need to promote a workplace safety culture within the City, if not addressed, will result in a high risk of employee injuries and reduced resources available to provide City services.

#### Strategies to address the Long-Term Issue

- Continue to provide useful and accurate Workers' Compensation and On the Job Injury (OJI) reports to Departments and assist in analyzing their workplace injury experience.
- Provide safety consultation services to Departments.
- Train managers in the essential elements of an Occupational Safety Program.
- Coordinate safety training and new employee orientation for all City employees, employing both internal and external resources.
- Maintain a City-wide Safety Advisory Committee to make recommendations for improving the City's safety culture.
- Implement and maintain an Emergency Response Team (ERT) for the downtown City offices.
- Continue proactive claims management services.
- Continue the safety recognition program.
- Implement a city-wide return to work program.
- Ensure every department maintains and updates an injury/illness prevention plan.
- Work with departments to identify hazardous workplace conditions that qualify for the Risk Management Safety Grant.

### Strategic Result(s) to measure annual progress on Long-Term Issue

By 2026, a culture of safety will be reflected by:

# of injuries per 100 employees

- The City injury rate will be at or below 10 injuries per 100 employees.
- 100% of employees will receive quarterly safety training.
